DP PAY

VENDOR PAYMENTS SIMPLIFIED

KEY FEATURES & BENEFITS

Flexible Payment Methods

Virtual cards, Integrated Pay Network, ACH, and Checks.

Efficiency & Time Savings

Streamline vendor payments, automate reconciliation, and reporting processes, and reduce costs by identifying invoice discrepancies.

Seamless Integration & User Experience

Utilize a modern web-based interface, integrate seamlessly with 200+ ERP systems, and capture invoice data with 99.5% accuracy.

Automated & Customizable Payments

Replace checks with virtual, one-time use credit cards, and dynamically choose payment methods (Check, ACH, or Credit Card) within the Data Plus system.

Real-Time Cash Flow Insights

Access real-time cash flow data at the business unit and executive levels, enabling informed financial decisions and early payment discounts.

Enhanced Security & Control

Increase payment visibility and control, prevent fraud, and utilize secure card and network payment options.

OVERVIEW

Vendors can be paid via check, ACH, or credit card using Data Plus' new seamless solution. DP Pay allows real-time payment tracking within Data Plus without needing another system's portal. DP Pay updates the Data Plus database as transactions progress, and DP Docs integration makes invoice images visible at payment time.

DP Pay, a next-gen web application with a new user interface, streamlines B2B payments through automated execution and cash management. It automates the entire invoice-to-pay process, offering top-notch compliance, security, and functionality on the Data Plus platform.

FREQUENTLY ASKED QUESTIONS

What is DP Pay?

DP Pay is our advanced Gen 2 web-based solution for automating and optimizing B2B payments, integrated with the Data Plus accounting software and bank.

How does DP Pay improve payment efficiency?

DP Pay streamlines vendor payments, frees up employee time, and automates reconciliation and reporting processes.

Can DP Pay help reduce costs?

Yes, DP Pay reduces costs by identifying invoice discrepancies, flagging vendor errors, and replacing checks with virtual, one-time-use credit cards with robust approval processes.

What if a vendor makes changes to their bank account info, how can I update the information?

When doing the payment processing you can edit the vendor record from the payment screen, this saves a user from having to exit out to make changes. You will also get a warning if required information is missing and needs to be updated and can fix this from the payment screen.

What payment methods does DP Pay support?

DP Pay supports virtual cards, Integrated Pay Network, ACH, and checks.

How does DP Pay enhance security and control?

DP Pay increases payment visibility, offers enhanced security and fraud prevention, and provides complete audit tracking and advanced risk management tools.

What kind of user experience does DP Pay offer?

DP Pay has a user friendly web based UI that is easy to use, fast and accessible from any device with a web browser.

How does DP Pay mitigate fraud risk?

DP Pay offers ironclad security controls to mitigate fraud risk and secure card and network payment options.

Does DP Pay provide real-time cash flow insights?

Yes, DP Pay provides real-time cash flow insights at both the business unit and executive levels.
